

# ADITYA GUPTA

Competitive Programmer , Full Stack Developer

adityagupta5908@gmail.com

+91-9219355908

Kanpur, UP, India

linkedin.com/in/adityagupta

To obtain challenging position that best utilises my skills and provide opportunities to grow my technical and managerial skills which would enable me as a fresh graduate to grow while fulfilling organisational goals.

## WORK EXPERIENCE

### Software Engineer Intern Codevertex It services inc.

06/2024 - till date

Work From home, India

#### Achievements/Tasks

- Worked to introduce a new critical feature in an ongoing project in the Risk Data & Platforms Team of codevertex.
- It was purely a development project. I have worked on creation of Workflows (BPMNs), followed by their deployment. I have also created APIs and have used them in my project.
- It also involved creation of UI for letting the user view and input data so that we can process it at the back-end.
- Tech Stack involved was as follows: **Groovy, Java, Dropwizard, Postman, GitLab, IntelliJ IDEA, JSON, JIRA, REST APIs, Maven, Eclipse Jetty, DB, Various other Java Libraries**, etc.

### Web Developer Intern Octanet Services

11/2020 - 12/2020

Work from Home

#### Achievements/Tasks

- Collected, crunched & analysed data from internal and external sources. Built the Full stack Web application with view js and Ejs for Frontend for Dynamic Data.
- Used Business Intelligence tools to analyse data and designed visualization dashboards for the dataset.

## PERSONAL PROJECTS

### Park-Here (09/2023 - Present)

- The aim is to create best application for the user Experience.
- It will capture the live location of the person and giving him the best place to park his vehicle and will broadly support by our application developers to the users or clients.
- In this Web Application there is a use of full Stack development by React And also good things.

### Aiwai Chat app (03/2022 - 04/2022)

- It is basically a web application made for chat to each other and make on the basis of the requirements and position by analysing their Resumes and CVs.
- It uses recommendation based techniques such as content based filtering and collaborative filtering.

### 4 Layer Security System (02/2024 - 03/2024)

- A system for storing files on cloud made using Cryptographic algorithms & Image Steganography such that the encrypted file's can't be even decoded by reverse engineering process thus preventing third party access to the file.

## EDUCATION

### B. Tech. in Computer Science Engineering Pranveer Singh Institute of Technology

12/2022 - Present

GPA: 7.43 / 10

### Intermediate - UP BOARD(UPMSP) S.G.N.K. VIDYA MANDIR I.C.

04/2021 - 03/2022

Aggregate: 71.6 %

### High School - UP BOARD(UPMSP) S.G.N.K. VIDYA MANDIR I.C.

04/2019 - 03/2020

Aggregate: 83 %

## SKILLS & INTERESTS

Python

C/C++

Java

OOPs

Analytical Skills

DBMS

MySQL

DSA

Competitive Programming

Data Science

Problem Curating

Machine Learning

## ACHIEVEMENTS

Code vertex Frontend Winner

Github User (01/2023)

Aiwai Chat App(Web App)

2 star Hackerrank problem solver

Backend Started ( 01/2024 - till now)

DSA by pw skills

3 star Hackerrank C programmer

LeetCode Problem Solver

100+ problem solved by me

1000+ Problems Solved on Online Judges

HTML,CSS AND JS(12/2022 - 5/2023)

Cred Clone

## CERTIFICATES

Cyber Security Virtual Experience

Received from TheForge Private Limited

Python Course

Received this 2 Course Specialization from Infosys Springboard

Problem Solving, Python & C Certification

Received both Basic & Intermediate Certificates from HackerRank

Algorithmic Toolbox Certification

Received from University of California San Diego & HSE University

## LANGUAGES

English

Full Professional Proficiency

Hindi

Native or Bilingual Proficiency
